Harmonium

Harmonium

Feel free to comprehend
What I see will never end
It can't be now that life is gone
It's too real to overcomeIt's too real
It's too real
Too real
It's too realThese days my hands are tied
These days I think you'll find
I'm not me now, a light has died
It's too real to run and hideIt's too real
(I was floating in the water, something tried to pull me under)
It's too real
(I was floating in the water, something tried to pull me under)
It's too real
(I was trying to live, my life wouldn't let me, it wouldn't let me)
It's too real
(I was trying to live, my life wouldn't let me, let me, let me, let me)Feel free to comprehend
What I see will never end
I'm not me now, a light has died
It's too real to run and hideI'm not me
(You were floating in the water, something tried to pull you under)
I'm not me
(You were floating in the water, something tried to pull you under)
I'm not me
(You were trying to live, your life wouldn't let you, it wouldn't let you)
I'm not me
(You were trying to live, your life wouldn't let you, let now, let me, let you)
