Do You Love Me

Amanda Jenssen

Truth be told simple and bold I think you're special
We can roll like a team you know what I mean
See I'm not gonna mess around and I'm not gonna let you down
Cause I do love you
This I know, this I know

Money makes the world go around
People will be people always
Baby what comes up comes down
This I know, so here I go
Do you love me, love me?
Do you love me, love me?
Do you love me baby?

Hit or miss guess what it is you are that someone
Time end the ruff the real stuff
Now if a good man's hard to find
Then luck is a friend of mine

'Cause I do love you
This I know, this I know

Money makes the world go around
People will be people always
Baby what comes up comes down
This I know, so here I go
Do you love me, love me?
Do you love me, love me?
Do you love me, baby?

Lalalala?
Hey hey oooh

Money makes the world go around
People will be people always
Baby what comes up comes down
This I know, so here I go
Do you love me, love me?
Do you love me, love me?
Do you love me, love me?

Do you love me, love me?
Do you love me, baby?
