10th Man Down

Nightwish

Today I killed, he was just a boy
Eight before him, I knew them all
In the fields a dying oath
I'd kill them all to save my ownCut me free, bleed with me, oh no
One by one, we will fall, down, down
Pull the plug, end the pain, run'n fight for life
Hold on tight, this ain't my fightDeliver me from this war
It's not for me, it's because of you
Devil's instant my eternity
Obey to kill to save yourselfCut me freeI envy the nine lives that gave me hell
My path made up by their torn bodies
Man to man, soldier to soldier, dust to dust
Call me a coward but I can't take it anymoreThey wait for me back home
The live with eyes turned away
They were the first ones to see
They are the last ones to bleedThe ultimate high as all beautiful dies
A ruler's tool, priest's excuse, tyrant's delight
I alone, the great white hunter
I'll march till the dawn brings me rest
10th patriot at the gallows' poleCut me free
