First class no be who collect extra sheet
Give ladies ecstasy, with our expertise
We calling shots but dem no dey get service
Wen we comot London we go check Paris
I dey smell envy, i detect malice
I donâ€™t care lifestyle you go fear lavish
Foreign girls in my house i dey learn Spanish
And the French girl tell me je m’appelle Gladys
I dey scope omoele till some bread vanish
But no be strain on my pocket â€™cus we less famished
Ladies love made men and we established
Dem dey con find us lyk we herbalist
Dey wii chop our bobo if itâ€™s well garnished

[Chorus]
