I feel it

Urban Myth Club

Ask me why
Why I tell the space like another space
It's somewhere the sky is blue
Ask me why
Why it's not a dream in the children's scream
It's a nightmare the sky is blue

It will blow your mind no doubt its true
Together were you want separator will you to
Scream it scream it loud this is bad
It's a piece of your heart when you feeling mad
You think all the trouble in the world are made for you
Then you see the sky the sky is always blue
Everybody in the world has a chance in a place
Stop becomes the culture and the race

Ask me why
Why you had your mother you don't watch no other
Its a fight there the sky is blue
Ask me why
Why I start to brake here and now today
Its a shame there the sky is blue

This is the land of the sun with the golden shine
A place that's once for always mine
Today is the day like the on your first rendezvous
You feeling really nervous you don't know what to do
Some say that you are out of space
But you are a part of the human race
Life goes up and down and that's true
When you think its over then the sky is blue

It will blow your mind no doubt its true
Together were you want separator will you to
Scream it scream it loud this is bad
Its a piece of your heart when you feeling mad
You think all the trouble in the world are made for you
Then you see the sky the sky is always blue
Everybody in the world has a chance in a place
Stop becomes the culture and the race
