My Love Is Pink

Sugababes

Love, love everybody, everybody
Love, love everybody, is pink
Love, love everybody, everybody
Love, love everybody, is pink
Thinkin? about the way that I can say
Maybe there's more to me than you see baby
Seventy different ways to misbehave
Big numbas and I will make it eighty
Dance on the spot, givin' it all we got
Fire in my eyes, baby I can't disguise
That deal that we did is gettin' me in the mood
If I could make a man he'd look a lot like you
My love is pink, everybody knows what you think
My love is white, but it won't amount too much tonight
My love is red, hotter than the terrible things you said
My love is like the colors of the girls, so what hold tight
Talkin' about what's never gone before
Lettin' you work your way around my body
Whatever you got I'm guessin' I got more
Even with no regrets you won't be sorry
Dance on the spot, givin' it all we got
Fire in my eyes, baby I can't disguise
That deal that we did is gettin' me in the mood
If I could make a man he'd look a lot like you
My love is pink, everybody knows what you think
My love is white, but it won't amount too much tonight
My love is red, hotter than the terrible things you said
My love is like the colors of the girls, so what hold tight
My love is pink, everybody knows what you think
My love is white, but it won't amount too much tonight
My love is red, hotter than the terrible things you said
My love is like the colors of the girls, so what hold tight
And I'll be true, true to my word
Oh baby, I will be true
If you give me your word
Then maybe I'll show you the moves
Love, love everybody, everybody
Love, love everybody, is pink
Love, love everybody, everybody

Love, love everybody, is pink
My love is pink, everybody knows what you think
My love is white, but it won't amount too much tonight
My love is red, hotter than the terrible things you said
My love is like the colors of the girls, so what hold tight
My love is pink, everybody knows what you think
My love is white, but it won't amount too much tonight
My love is red, hotter than the terrible things you said
My love is like the colors of the girls, so what hold tight
Love, love everybody, everybody
Love, love everybody, is pink
Love, love everybody, everybody
Love, love everybody, is pink
