

Lexie Wright

Glengarry Boys

Why don't you come with me Lexie Wright
Why don't you come with me
Take my hand and I'll show you Scotland
How my land was once set free
How my land was once set free

In 1304, the Wallace he fought the foe
He sent them back to England with words of fear of their foe
I'll fight and die for Scotland boys to keep her forever free
Until the day that he did die Scotland would be free

So, why don't you come with me Lexie Wright
Why don't you come with me
Take my hand and I'll show you Scotland
How my land was once set free
How my land was once set free

In 1314, the Bruce he fought the foe
He fought them down in Bannockburn, the odds were 50 to 1
We'll fight and die for Scotland boys will keep her forever free
Until the day that I do die Scotland will be free

Why don't you come with me Lexie Wright
Why don't you come with me
Take my hand and I'll show you Scotland
How my land was once set free
How my land was once set free

In 1321, the Douglass he fought the foe
He fought them down in England with words of fear of their foe
I'll fight and die beside McBoyd, my passion forever will be
Until the day that I would die, Scotia will be free

In 1998, I took my daughter home
Through the hills and glens for which so many fought and died
After 300 years of Sax-Anglo, our heroes will rest without vain
And know in their hearts that the blood they spent was never lost in vain

Was never lost in vain
Was never lost.....(FREEDOM) in vain
