

# Cruel

## Human Nature

You can say love's forever and it never stays  
In you I've discovered the one thing that must remain  
I'm tired of a world undone  
I've figured out you're my setting sun  
It's cruel the way I'm needing you, I guess I'll play the fool  
It's my heart, not my mind and it's taking over  
Cruel suddenly it's true no longer can I choose  
It's in you I'm defined and there is no other  
Oh, it's cruel  
Oh, it's cruel  
I can hold back emotions get lost in a maze  
But this urgency tells me I just can't refrain  
Dreams have come and passed me by  
But now it's time to redefine  
It's cruel the way I'm needing you, I guess I'll play the fool  
It's my heart, not my mind and it's taking over  
Cruel suddenly it's true no longer can I choose  
It's in you I'm defined and there is no other  
I've seen it come and go so many times  
But this is critical the truth I can't hide and I don't know why  
It's cruel the way I'm needing you, I guess I'll  
play the fool  
It's my heart, not my mind and it's taking over  
Cruel suddenly it's true no longer can I choose  
It's in you I'm defined and there is no other
