Hawt Lixx

Daggermouth

The worst year of my life and I'm fighting so hard to survive
The one thing that I cared about you destroyed despiteRepeated cries of no
You pinned her down and so
She cries in my arms each night
I know she put up such a fightYou better watch your fucking back
It's not that easy yeah
It's hard to smile with no front teeth
Your cowardice we all seeI was instantly filled with regret
That night I should have gone with you
I've lost my self respect
And now I'm paralysed with pain
I dropped to the floor and stayed
And then my weeping turned to rageYou better watch your fucking back
It's not that easy yeah
It's hard to smile with no front teeth
Your cowardice we all seeI know you're sitting back thinking you got away
Well it's been 7 years mother fucker
And I'll never, never forget this
