

Early Morning (Early Version)

[a-ha](#)

Early morning
Eight o'clock precise
I see the lonely August sun arise Say you know You will
Move me like you do Out on the fields I'm waiting the whole night through
Early morning, early morning, yeah Ran the whole way Down to the tracks
Through the doorway, then a last look back Say you know You will
Save me like you do Out on the fields I've waited the whole night through
Early morning, early morning, yeah I climbed all the stairways To find the rooftop clear
Got the shotgun lying with me here
Say you know
You will
Move me like you do Out on the fields You know how it feels, yeah
Early morning, early morning, yeah Early morning Eight o'clock precise
