Golden Girl

Dan Wilson

The golden girl, golden fire
Golden eyes read my desire
I've wander through the world so
Long looking for the golden girlI watched her walk the across the square
Through the gate, I lost her there
Gonna see my golden girl again
I'm gonna see my golden girl someday, somedayI've been waiting a long time to find you
Out the windows of all my dreams
And I've been hoping there's somebody like you
In the world for meI'll be the sun burning in space
All to one golden face somedayI've been waiting a long time to find you
Out the windows of all my dreams
And I've been hoping there's somebody like you
In the world for meI think of her all the time, the rest is a blur
But the dream that I'm gonna see my golden girl again
I'm gonna see my golden girl
I'm gonna see my golden girl again someday, someday
