Raining On the Moon

Doc Walker

Have you heard the news? It's raining on the moon
The man in the TV said, "It's raining on the moon"
Even the scientists can't believe it's true
They're showing diagrams and little moon cartoonsWhere we are is everything we know
All we've got is the love that we showIt was a man who knew that none of this was true
He swore by God above, the end was coming soon
Now there's a rocket bus, leaves every afternoon
And funny little cars racin' on the dunesWhere we are is everything we know
All we've got is the love that we showEveryone aboard, it's raining on the moon
(What would you stay here for? It's raining on the moon)
Everyone aboard, it's raining on the moon
(No worries anymore, it's raining on the moon)Everyone aboard, it's raining on the moon
(What would you stay here for? It's raining on the moon)
Everyone aboard, it's raining on the moon
(No worries anymore, it's raining on the moon)Everyone aboard, it's raining on the moon
(What would you stay here for? It's raining on the moon)
Everyone aboard, it's raining on the moon
(No worries anymore, it's raining on the moon)
