

When I Get Big

Waylon Jennings

I might drive a truck, I might drive a train
I might sail a boat or fly an airplane
Might take a rocket ship to the moon
I'm growin' pretty fast so it might be soon.

When I get big, when I get big
That's what I'm gonna do when I get big.

Someday I'll leave mom and dad all alone
Make a lot of money then come back home
I'll buy everybody everything they like
And even buy myself a brand new bike.

When I get big, when I get big
That's what I'm gonna do when I get big.

I might be president and stop all the wars
And make people happy wherever they are
Protect all the animals the dolphins and the whales
If people try to hurt 'em I'll put 'em in jail.

When I get big, when I get big
That's what I'm gonna do when I get big.

When I get big, when I get big
That's what I'm gonna do when I get big.

When I get big, when I get big
That's what I'm gonna do when I get big
