Arriving UFO

Virgil Howe

I could not take it, oh, so seriously, really
When you called and said you'd seen a UFO
But then it dawned on me the message in writing
Spelt out a meeting never dreamed of before
I looked out in the night
Strange and startling
Was this voice of time just saying
There's got to be a linking of everyone
Got to be a center
It all comes flooding back
Arriving through eons of times
Immortal power of the future to behold
Vessels of a different impression
None that we could ever hope to have known
So look out in the night
Once they arrive
On that perennial light
Impress a bolder empire of energy
In the ships we see
The coming of outer space
You say there's no reason to conjure
With the force as it has been known to be seen
You say I'm a fool, a believer
Put your feet on the earth, it is green
But look out in the night
Wait for they arrive
To start such sciences anew
Here it is the coming of outer space
Such a pure delight
The coming of outer space
Look out, look out
Look out, look out
Look out, look out
Look out
