Tough Love

Kiss

I wanna take you down
Until the mornin' light
Why don't you come around?
And let me treat you rightI'm the one
Who gave you what you never had
You said I should, be gentle and be good
But hoped to Hell I would be badWell I wanna take you
Baby gonna make you
Gimme tough love
C'mon and please me
Take your time and tease me
Gimme tough loveI tie you to the rings
I feel your fever rise
We love to do the things
That others fantasizeAnd then
You smile and bring me to my knees
But when I try, a gentle lullaby
I swear I hear you sighin' pleaseWell I wanna take you
Baby gonna make you
Gimme tough love
C'mon and please me
Take your time and tease me
Gimme tough love, toughI never knew
How much I needed you till now
But now I know
And tonight I'm gonna show you howAnd then
I smile and bring you to your knees
And though I try, a gentle lullaby
I swear I hear you sighin' please, pleaseWell I wanna take you
Baby gonna make you
Gimme tough love
C'mon and please me
Take your time and tease me
Gimme tough love
(Give it to me)
Gimme tough love, tough
