Nemo

Umphrey's McGee

No assumption should be worth listing
They belong with someone else
Set in motion, which your still missing
There will always be a need.You are always somewhere above me
Can't there be away around this?And when its there you know you ought to be the one to ride it through,
and its easy to stop before you start.
When its there you know you ought to be the one to ride it through,
and its easy to stop before you start.
There's only one more way to think about what everything could happen if it wasn't left unsaid
And everytime we seem aware of all that matters there will always be a memory you forget.So be demanding,
when no ones listening
You will always find an ear.
Set in motion, which your world's missing
There will always be a need.There has got to be a reason.
Whos to say what privelage means?And when its there you know you ought to be the one to ride it through,
And its easy to stop before you start.
When its there you know you ought to be the one to ride it through,
And its easy to stop before you start.
The more I realize the things I've seen through these eyes
there's only so much more that you could show.
As many times as we've been there and back again
now I dont care if I've been no one in the end.
As many times as we've been there and back again
now I don't care if I'll be no one in the end.
