Comfort Me

Phildel

Falling like a snowflake on the road,
Heavy like your footprints in the snow,
Turning like a wheel that moves the soul,
Burning like a star that guides you home,

(Bridge)
Will you comfort me, cos my hands are open,
Comfort me
Will you comfort me, like someone you've chosen,
Comfort me

(Chorus)
Cos I, I don't fade, I don't fall easily,
So if you want some, you take all of me,
Cos I, I'm like sun with all her gravity,
Follow home all those memories...

Cos I swear when you get there you'll belong,
Sending up a flare to guide you on,
Siphoning the best times that we've known,
And spiralling their outlines in the snow,

Bridge

(Chorus repeat)

Cos oh, oh the silence, of the things we used to say,
Oh, oh the silence of the songs we used to play,

(Chorus repeat)
