Discotech

Devilfish

Stepping out tonight, flying so high
It's the good times keeping me alive
Are you ready to hit it running
This is where it's at six in the morningYou can fake this only if you take this
(You wanna lose control, you wanna lose control)
You can fake this only if you take this
(You wanna lose control, you wanna lose control)The way that she does it I can't get enough
The way that she does it I can't get enoughAttack, we keep it on the dance floor
Discotech meet me at the back door
Let's get down, we've been waiting a long time, a long time
She's back I can feel it in the air
Discotech you know she's gonna be there
Let's get down, we've been waiting a long time, a long timeThe way that she does it I can't get enoughShow up in the crowd, take a look around
Me and my crew, we came to get down
She's giving me looks, I can't help it
The way I'm feeling it's gonna happenYou can fake this only if you take this
(You wanna lose control, you wanna lose control)
You can fake this only if you take this
(You wanna lose control, you wanna lose control)The way that she does it I can't get enough
The way that she does it I can't get enoughAttack, we keep it on the dance floor
Discotech meet me at the back door
Let's get down, we've been waiting a long time, a long time
She's back I can feel it in the air
Discotech you know she's gonna be there
Let's get down, we've been waiting a long time, a long timeThe way that she does it I can't get enoughYou make fast living look just fine
Looks like I got here just in time
Tonight the city is yours and mine
But it won't last foreverAttack, we keep it on the dance floor
Discotech meet me at the back door
Let's get down, we've been waiting a long time, a long time
She's back I can feel it in the air
Discotech you know she's gonna be there
Let's get down, we've been waiting a long time, a long timeAttack, we keep
Discotech meet me at
We've been waiting
