Halcyon (FTSE Remix)

Ellie Goulding

I know it's not over
Baby I worked this out for sure
It's gonna be colder
Now you force open the door
I know you better
than I ever have before
I know youI know you're a fighter
But you never fought for me
When I was a shelter
'Cause you're not heading home to me
We could be closer
We could be closer
We could beWhen it's just us, you show me what it feels like to be lonely
You show me what it feels like to be lost
I'll take your hand for you to let it go let it go let it go
When it's just us, you show me what it feels like to be lonely
You show me what it feels like to be lost
I'll take your hand for you to let it go let it go let it go let it go
It's gonna be
It's gonna be better
It's gonna be better
It's gonna be better
It's gonna be better
It's gonna be better
It's gonna be
It's gonna be better
It's gonna be betterWe'll take a long walk
Down the alleys of these houses
And we'll talk
See what conversation rouses
When we're alone
When we're alone, it could be home
