

Trouble

Nazareth

A ship comes in from africa
Carrying forbidden cargo
Gonna bring somebody lots a trouble
There's a family out in ohio
Gonna step on it and make it grow
Gonna fool some people at the double
Let it all go round
And it all comes down
A captain down in florida
Knows a man back in chicago
Every deal you know he's makin money
Rico comes from texas way
With a senorita from el paso
Glad he's found the land of milk and honey
Let it all go round
And it all comes down
