

# Wasted

MKTO

Before she even falls asleep, I got one foot out the door  
One foot out the door  
I think she said her name but I was wasted  
I don't care anymore, one foot out the door Night after night, day after day  
Jack and coke smoking on the fire escape  
Is it too soon or is it too late Am I crazy to think that I could be in love  
When it all ends up  
It all ends up wasted  
I'd give you my heart but I'd just fuck it up  
And we'd end up, we'd end up wasted La la la la la la la Try and numb the pain away  
I know how to leave but not to stay  
I wonder if I will ever find, someone to fill me up inside  
Someone to kiss my fears away  
If I believed in God I'd pray  
To God I'd pray Am I crazy to think that I could be in love  
When it all ends up  
It all ends up wasted  
I'd give you my heart but I'd just fuck it up  
And we'd end up, we'd end up wasted La la la la la la la Night after night, day after day  
Jack and coke smoking on the fire escape  
Is it too soon or is it too late Am I crazy to think that I could be in love  
When it all ends up  
It all ends up wasted  
I'd give you my heart but I'd just fuck it up  
And we'd end up, we'd end up wasted La la la la la la la We'd end up wasted
