My Sunshine

Melomake

L-o-v-e, like tryna stop the sun from shinin
I can't help it, I can't hide it
You're my love I've decided
L-o-v-e, what is this feeling
I keep falling, faster, further
No more questions, you're the answerCause this is love, cause this is right
Cause your everything I've wanted
Cause this is here and this is now
Cause you're always on my mi-i-ind
And like the sunshine, we're never gonna fade
We'll stay here for always
We're never gonna change
Cause you're my sunshineL-o-v-e, like when the sky is blue and the grass is green
I can't help it every time,
I'm so lucky that you're mi-ine
L-o-v-e, what is this feeling
We talk through the day and all through the night
You make my whole world shineCause this is love, cause this is right
Cause your everything I've wanted
Cause this is here and this is now
Cause you're always on my mi-i-ind
And like the sunshine, we're never gonna fade
We'll stay here for always
We're never gonna change
Cause you're my sunshineAnd when it's dark and when it's cold
I know you'll hold me tight
I know that we're in love and I know you'll treat me right
And when it's dark and when it's cold
You'll hold me in your arms, and we'll dance under the starsCause this is love, cause this is right
Cause your everything I've wanted
Cause this is here and this is now
Cause you're always on my mi-i-ind
And like the sunshine, we're never gonna fade
We'll stay here for always
We're never gonna change
Cause you're my sunshine
