I Am Him

Nothingface

It's like a needle
A kind of evil
If you're the devil
It's very simple
You never needed anyone
You never needed anything
The pinnacle of ignorance
epitome of these events
Yeah your faithless
And kind of useless
But that's a pointless
Because I'm faithlessHide away inside the dark place in my mind
Fear of God and will take me home to fire
Hide inside the dark place in my mind
Fear of God and will he take me home?If you're a monster
With plans of murder
You'll find your conflict
Hangs from your shoulder
If you feel it going limp
Find your God and hold your grip
If it starts to burn your hands
Ignore the pain stick to your plan
You feel guilty
And still your empty
You define arrogance
Discontent and emptinessHide away inside the dark place in my mind
Fear of God and will take me home to fire
Hide away inside the dark place in my mind
Fear of God and will he take me home?I am the fire at your funeral
I am the bloody Marxist general
I am the lonely rapist priest
And the autocratic president
And the judge and inquisitor
I am the corporate funded senator
I am the distinctive shit of hate
I am American
I am the atom splitting scientist
And the gun holding lunatic
I'm the flag that contradicts

I am the way
I am americanHide away inside the dark place in my mind
Fear of God and will take me home to fire
Hide away inside the dark place in my mind
Fear of God and will he take me home?
