

# Need to Cry

## Beats Working

Why do you need to cry  
When a broken heart is all that you own  
When you're feelin put down and alone  
Life is just a game that we all have to play

Cryin seems the only way You used to call me when you had no-one to talk to  
You used to laugh a lot the way friends really ought to  
But now its changed a bitter taste is all that's left there

Why dont you play your music loud forget the past cares? No fancy parties left to drown your sorrows  
You're findin out just the same  
Todays the day to think of your tomorrows  
Dont let the spark fade away Why do we need to cry  
When a broken heart is all that you own  
When you're feelin put down and alone  
Life is just a game that we all have to play

Cryin seems the only way Dont say you're sorry when you know you really want him  
I he comes back I know you're waitin to forgive him oh oh  
What use are friends if you cant hear the things they tell you?

Dont look too close or you might see what you didnt want to oh oh The tears are crocodile and they wont hurt  
you

You're hard enough to remain yeah  
You never cared about the things that mattered  
Now that its over again Why do we need to cry  
When a broken heart is all that you own  
When you're feelin put down and alone  
Life is just a game that we all have to play

Cryin seems the only way Dont make it hard to understand your feelings

You'll work it out just the same yeah  
The need to cry the need to cry Why do we need to cry  
When a broken heart is all that you own  
When you're feelin put down and alone  
Life is just a game that we all have to play

Cryin seems the only way (Instrumental) Why do we need to cry  
When a broken heart is all that you own  
When you're feelin put down and alone  
Life is just a game that we all have to play  
Cryin seems the only way yeah  
Cryin seems the only way cryin seems  
Cryin seems the only way cryin seems  
Cryin seems the only way etc.
