Gun Control

Jim Jefferies

Another bunch o kids in a bloody mess
another maniac killin innocents
analysts and experts on cnn
explain away the pain on a day so greywithout the dark the stars can't shine
i pray to hope through the hard times
but things could change to save more lives
i think you knowwhy oh why do they second guess
Gun Control
my my my what an ugly mess
bless their soulsi dont wanna hear about his troubled past
theres a million little freaks with a past like that
people sayin there was something wrong with his head
if he couldn't get a gun there'd be nobody deadwhy oh why do they second guess
Gun Control
my my my what an ugly mess
bless their soulswithout the dark the stars cant shine
i pray for hope through the hard times
but things could change to save more lives
i think he knows where its atFreedom to take other peoples freedom away
is this what has become of the U.S.Awhy oh why do they second guess
Gun Control
my my my what an ugly mess
bless their souls
why oh why do they second guess
Gun Control
my my my what a f*#en mess
bless their souls
bless their souls
bless their souls
bless their souls
