On Your Mind

Pimp C

What's the deal, why do I feel
The way I feel about you
When I know I've got a girl
Tell me what in the world was I thinking
It's hard for me pretending we
Could really be platonic
When I want you for myself
But your mind is somewhere else baby
1- Silly of me, to think that we
Could really be but in reality
I ain't even on your mind
Even on your mind
Silly of me, imagining we
Could really be but in reality
I ain't even on your mind
Even on your mind
You set me straight when you articulate
The way you feel about me

Said I treat you like a brother would
I'm afraid that it ain't good enough for me
You must admit it's no coincidence
You sometimes reach to touch me
How can you say there's nothing there
When your eyes are sayin' that you want me
Repeat 1
Don't know what to do
Can't stop thinking about you
Got to find the way to stay on your mind
Yeah, don't know what to do
Can't stop thinking about you
And I ain't even on your mind
Repeat 1
