21 Gun Salute

21 Guns

21 gun salute
I guess I saw it in my TV show
With the look of the sun on the cityscape
I caught the subway home with a bellyacheWhen you look in her face, my friends
When I try to talk with a cloudy head
I keep fucking it up, and it's tough
Or maybe it's just that I'm outta luckIt all goes down hill
After the rains
After the floods
Only mountains
Retain their shape
Retain their blood
All your secrets
You kept til now
You'll keep to the grave21 gun salute
I had to put the body to rest (yep)
I guess I saw it in my fevered sleep
And I come to wake up with the morning breezeIt all goes down hill
After the rains
After the floods
Only mountains
Retain their shape
Retain their blood
All your secrets
You kept til now
You'll keep to the graveIt all goes down hill
After the rains
After the floods
And Only mountains
Retain their shape
Retain their blood
And all your secrets
Gone
