Caught In the Act

Laaz Rockit

What a waste of regrets and side glances
I should have let it all end to not answer
Using your pain as your way to bring you closer
Oh to bring you closer

Your inviting words never her to cause a scene
I'm just a name to your breath not a feeling
I'm patient boy waiting on your mattress
Just a patient boy waiting in the back

Oh I'm caught in the act
Before tonight lets do something
That we're gonna regret
Gonna regret

Oh I'm caught in the act
Before tonight lets do something
That we'll never forget
Never forget

What a waste of high hopes you leveled them out
I think I just might be in the thick of it
Using your body as your way to bring me closer
Come on and bring it closer

Oh I'm caught in the act
Before tonight lets do something
That we're gonna regret
Gonna regret

Oh I'm caught in the act
Before tonight lets do something
That we'll never forget
Never forget

Your inviting curves never her to cause a scene
I'm just a name that you forgot now we're even
A patient boy waiting on your mattress
Just a patient boy waiting in the back

Oh oh I'm caught in the act
Before tonight lets do something
That we'll never never forget
Lets do something that we'll never never forget
Lets do something that we'll never never forget

Oh I'm caught in the act
Before tonight lets do something
That we're gonna regret
Gonna regret

Oh I'm caught in the act
Before tonight I'm just a patient
Boy waiting in the back oh

Caught in the act
Before tonight lets do something
That we're gonna regret gonna regret

Oh oh I'm caught in the act
Before tonight lets do something
That we'll never forget never forget
