Let Me Be The One

No Mercy

Give me a chance to let you know
We can grow and we can love together
Let me be the one
Tell me what I have to do
'Cause when I'm spending time with you
I treasure
Let me be the one
All I have that I can give you
Is true love forever
The way I feel is far beyond
Let me be the one
To feel you, to kiss you
Be with you
Let me be the one to hold you
To show you, I love you
Let me be the one
There's nothing more I want to do
Than give and share my life with you forever
Let me be the one
To be with you until the end
Reach for me
And take my hand to heaven
Let me be the one

All I have that I can give you
Is true love forever
The way I feel is far beyond
Let me be the one
To feel you, to kiss you
Be with you
Let me be the one to hold you
To show you, I love you
Let me be the one
To feel you, to kiss you
Be with you
Let me be the one to hold you
To show you, I love you
Let me be the one
To feel you, to kiss you

Be with you
Let me be the one to hold you
To show you, I love you
Let me be the one
To hold you, to show you
Let me be the one
