Wisdom

T.N.T.

Through timeless change in my dreams
I am closer from ageless memories, long ago
To enlightened frontiers I'll take you there
Oh, mystic child, together where ever we flySomehow I feel like I'm going through changes
And sometimes I wake up still dreaming
Only a lifetime can fill the pages
A story of wisdom for allThrough shadows past into life
Came a sorcerer, unchained his energy, running free
The wisdom inside will be a force in time
We'll carry on together whenever we dieSomehow I feel like I'm going through changes
And sometimes I wake up still dreaming
Only a lifetime can fill the pages
A story of wisdom for allA force in time we'll carry on
Together whenever we dieSomehow I feel like I'm going through changes
And sometimes I wake up still dreaming
Only a lifetime can fill the pages
A story of wisdom for all
