When We Die

Bowling For Soup

Well, I know that it's early
And it's too hard to think
And the broken empty bottles
Are reminder in the sink
But I thought that I should tell you
If it's not too late to say
I can put back all the pieces
They just might not fit the same
'Coz nothing's worth losing
Especially the chance to make it right
And I know that we're gonna be fine
And the tattooed mistakes
Are gonna fade over time
As long as we live, time passes by
And we won't get it back when we die
Well, I know it's been years now
And I don't look the same
And the hopes and dreams you had for me
You thought went down the drain
And the room feels so empty
Where my pictures used to be
And I can't say that I blame you
But you can't blame me
'Coz nothing's worth losing
Especially the chance to make it right

And I know that we're gonna be fine
And the tattooed mistakes
Are gonna fade over time
As long as we live, time passes by
And we won't get it back when we die
Come over, come over, 'coz I gotta know
If I am doing this all on my own
Come over, come over
How can I show you if you're not here
And I know that we're gonna be fine
And the tattooed mistakes
Are gonna fade over time
As long as we live, time passes by

And we won't get it back when we die
And I know that we're gonna be fine
(And I know that we're gonna be fine)
And the tattooed mistakes
Are gonna fade over time
As long as we live, time passes by
And we won't get it back when we die
Come over, come over
Come over, come over
Come over, come over
(I gotta know)
We won't get it back when we die
(I know that it's early)
