Up Step

Patrick Jaouen, Joshua Daby & Shawn Rotolo

I've waited far too long
For a place amongst the King and Gods
For you to stand in my way
If you think you're gonna stop me try
Because Im much too strong
A million hands up all along
And I'm much too smart
And then I fit in a single song

You Better Watch Yourself

I don't mind
If you coming along now for the ride
But up Step your pace
I can tell you're scared from the look on your face
Tell your quiet mind
Don't you stay around for too long
Cause I ain't got space
for the ignorant mind what a waste

You Better Watch Yourself

I made it by myself
So you don't get to stay
But Up Step your pace
I can see the truth from the look on your face
And tell your friends
Cause they ain't never seen no one like me
Step up your game
Cause I kicking it up and Im taking names

You Better Watch Yourself
