Crossover

Jimmy Bowen

It's way to hot outside
And you can't trust anyone
You've had a long hard ride
And the days hardly begun
You've got nothing to lose
They took it all while you looked away
I know you paid your dues
Do you need somewhere to stay

[Chorus:]
I could put your every wrong to right
I will be your sanctuary tonight
Crossover and come inside
Crossover and come inside
I'm the only friend you'll need to know
Give me all your troubles let them go
Crossover and come inside
Crossover and come inside

Too many crooks and thieves
They will take you for every cent
Hold on to your beliefs
They will guide you through the trench
I know your heart is pure
Your embrace is river wide
You need a place to crash
Do you want to come inside

[Chorus x3]
