Stateless

Ariel

I got no home in this world
Just gravity, luck and time
I've got no home in this world
Just you and you are not mineStateless
Fateless
Stateless
(Shut you cold)There are no colors in your eyes
There's no sunshine in your sky
There's no race, only the prize
There is no tomorrow, only tonightStateless
Oh, what's the difference?
You can cover the world with your thumb
Still so big, so bright, so beautifulWeightless
StatelessPush down on me
Push, down on me
(Push)Awake now
A weight, get down on me
Your weight, downBring your weight on, down on me
Be the heavy hand, the mortal sand
Be the weight, heart, get down on meStateless
Weightless
