Making My Move

Tommy Page

I caught you looking at me as I was looking at you
It was so easy to see what I was going to do
Too late to turn back now, I'm gonna get to you somehowI'm making my move, moving closer to you
I'm making my move, this time I follow through
I said to myself that I've got to prove
I'm not afraid of making my moveI feel your heart and it's beating just as fast as mine
We know it won't be long, it's just a matter of time
Some things were meant to be and your love is motivating meSomething inside of me, something subconsciously
Passion is taking me somehow it's making me move in closer to youI'm making my move, moving closer to you
Making my move, this time I follow through
I said to myself that I've got to prove
I'm not afraid of making my moveSomething inside of me, something subconsciously
Passion is taking me somehow it's making me move in closer to youI'm making my move, moving closer to you
Making my move, this time I follow through
I said to myself that I've got to prove
I'm not afraid of making my moveMaking my move, moving closer to you
Making my move, this time I follow through
I said to myself that I've got to prove
I'm not afraid of making my moveSomething inside of me, something subconsciously
Passion is taking me somehow it's making me move in closer to you
I'm not afraid of making my moveSomething inside of me, something subconsciously
Passion is taking me somehow it's making me move in closer to you
I'm not afraid of making my moveSomething inside of me, something subconsciously
Passion is taking me somehow it's making me move in closer to you
I'm not afraid of making my move
