The Next Untouchable

Cajun Dance Party

I can't believe, I can't deny
I can't conceive what's in your eyes
Another mistake, another regret
Another unwanted cigaretteAnd do you really like me?
'Cause 1 and 1 and 1 makes 3
If you don't hear me
Then why should I hear you?I can't walk away
All I can do is say
Better luck next timeThe next untouch
The next untouch
The next untouch
The next untouch
The next untouchableI can't walk away
All I can do is say
Better luck next timeThe next untouchable
The next untouchable
The next untouchableI feel her
I move her
I believe her
I see herAnd then it comes
I know what to do
Do I feel it pure
Or is that just you?She said again
She said again
She said again
She said againShe said again
She said again
She said again
She said againAnd do you really like me?
'Cause 1 and 1 and 1 makes 3
If you don't hear me
Then why should I hear you?I can't walk away
All I can do is say
Better luck next timeThe next untouch
The next untouch
The next untouch
The next untouch
The next untouchableI can't walk away
All I can do is say

Better luck next timeThe next untouchable
The next untouchable
The next untouchableI feel her
I move her
I believe her
I see herForget her
Forget her
Forget her
