

# The Reaper

## Taberah

Welcome to the Evil's nightmare  
See the demons dancing round  
waiting for the reaper's rising  
Looking out for Satan's crowd  
The grave is open, a digger's smile  
please welcome the dead  
Look Behind You; He Stands Behind You  
The Reaper Shall Return  
Look Beside You; Walks beside You  
The Reaper has Returned  
Tonight the Reaper's party is open  
Get entrance, get the trance  
Forget about the words of warning  
Forget about the smell of death  
The raft of death now leaves the landing  
Waters wipe out space and time  
Black man gives a skinless smile  
Cold greetings reach your mind
