

# Another Night

[Rancid](#)

in the dark with the okland skyline  
as i cross the city i avoid the landlines  
all i wanna do is make it through without dying  
all i wanna do is keep on trying  
another night  
in the streets for me  
another night  
no sanctuary  
another night  
come and watch me bleed  
another night  
in the streets for me  
she wouldnt move until the coast  
was clear  
she always knew the final battle was near  
if you have a bag of dope she give it up for free  
if you got a song of hope it will help her see
