Inside My Head

Shattersphere

Come into my territory and you'll feel my pain
Can't explain these violent feelings deep inside my brainI'm just trying to think what I should do
I feel like lashing out all over you
In the end I hope you'll understand me tooThese eyes
The fire
Get out of my head
The change
Unrest
Feel my eyes turn red
My thoughts
My words
Stay inside my headCome into my territory and you can be my slave
Try to go through what I do and you wouldn't last a day
Quick to speak before I do and jump into the lead
Have it your way
Now you've done it
It's time to break the peace
