Sleep Away Your Troubles

The Softies

If I beg you will you smother me?
Just to put me out of my constant misery
This is too much for me to bear
You'd know this too if you ever had been thereI hope you have sweet dreams
And I hope you never leave meI wander through these empty halls
As the moon casts shadows of just me upon the walls
My time wasted in endless regret
While you sleep away your troubles and forgetI hope you have sweet dreams
And I hope you never leave me
