Don't Change a Thing

Heather Small

Performed by Heather Small
Written by Heather Small and Steve Booker
Produced by Peter Vettese
Published by BMG Music / Windswept Music (London) Ltd.
Engineered by Mark Evans
Mixed by Phil Bodger
Guitars by Robbie McIntosh (of The Pretenders)
Keyboards and Programming by Peter Vettese and Mark Evans
Strings arranged by Simon HaleSometimes I hold my breath for the longest time
Close my eyes and watch this free fall flight
Scared of coming down from these dizzy heightsI need a snapshot before the last light fades
'Cos you're looking at me in that way again
Want to capture this in case this moment endsDon't let the feeling go, now it's really here
'Cos only heaven knows what's happening
I do believe we can make this world stand still
If we don't change a thingLast night I had that same old dream again
Walking on a tightrope without a safety net
But I had my wings because you were thereDon't let the feeling go, now it's really here
'Cos only heaven knows what's happening
I do believe we can make this world stand still
If we don't change a thingDon't let the feeling go, now it's really here
'Cos only heaven knows what's happening
I do believe we can make this world stand still
If we don't change a thingWe don't need to change a thingDon't change a thingDon't change a thing
