Let It Roar

Virgin Steele

[Music: De Feis/Pursino, lyrics: De Feis]Maching to distant shores
Killing for freedom's gain
My sword, hands held high
Together we stem the tide
And[Chorus:]
Let it roar- let the lion in you raise its head and roar
Let it roar- let the lion in you come right out and roarBurning the street's on fire
Pounding, the blood runs red
In power we call to arms
Rising a million strong[Chorus]Cry out, life's a struggle but it's worth the price
With fists of fire we can melt the ice
Behold the king who wears the crown of hate
I think we're gonna break him!Listen, the devil won't be coming here today
Even death can take an holiday
Shout it loud 'cross the land
Freedom is alive now!Roar!!!
[Chorus]Roar, roar, roar- together
Roar, roar, roar- I can't hear ya
Roar, roar, roar- let it...
ROAR!!
