Ever You Say

Earthtone9

shudder, even me ?
any should ?
it sends pricks ?
the sky's blue
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
speak, speak, speak, speak
shudder, even me ?
any should ?
it sends pricks ?
the sky's blue
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
speak, speak, speak, speak
ever you say, whatever you say
drag myself down, i can't get away
shudder, even me ?
any should ?
it sends pricks ?
the sky's blue
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
all you have to do is
speak, speak, speak, speak
