White Heat

John Waite

She's just a working girl from Baltimore
She'll choose you, she's been there
She's been there and back again
It's in and out, it's up, it's down, it's a mercenary
And you get what you need when you walk on the streets of paradiseInvoke in the streets, indecision
Yeah, yeah, yeah, white heat in fashionShe'll take you home, she'll take you where you wanna get back to
You're sweet sixteen but you will be a man tonight
It's to the wall, it's to the floor, she's in a hurry
But you get what you pay for when you live on the streets of paradiseIn heat, invoke, impassioned
Yeah, yeah, yeah, white heat in fashion
Hard cash, indiscreet, wild passion
In heat, invoke, in fashionWhite heat, cold passion, 8th Avenue, indecision
In heat, on the street, in fashion invoke in style
White heat, cool looks, hard cash, on the street
Invoke in style, indiscretion, in trains, in bars, in heatWhite heat, invoke in fashion, hard cash, indiscrete, wild passion
White heat in fashion, white heat in fashion
White heat in fashion, white heat, indiscrete, ignition
