Who Knows

Wanda De Sah

Somebody gotta tell me what tomorrow brings
And now i feel my life is just another dream
Even if im lost im gonna find a way
And even if i'll never see another day
Just tell me what tomorrow birings...
My lifes been all the same
Im thinkin that its start or change
Im thinkin that its startin to let go
ive gotta let go of all them things
All the hard times i know thyve been
Slowly startin to float away
Im thinkin that ive gotta let go
IF you could show me what tomorrow brings
Oh no
Who wknows
Whats going on
When your living the life that gets harder
When your living the change you get caught up
Oh no
Who knows
Whats going on
When your feelin alone and go crazy
And your screamin my Lord wont you save me
Somebody gotta tell me what tomorrow is
And now i feel my life is just another dream
Even if im lost im gonna find a way
And even if i'll never see another day
Just tell me what tomorrow brings...
I was stugglin days and nights

But now everythings goin alright
Im thinkin that im startin to move on
Ive gotta move on and live my life
Ive gotta think out everything
Coz theres no one to show me the way
Im thinkin that im startin to move on
Coz ?????? show me what tomorrow brings
Oh no
Who wknows

Whats going on
When your living the life that gets harder
When your living the change you get caught up
Oh no
Who knows
Whats going on
When your feelin alone and go crazy
And your screamin my Lord wont you save me
Somebody gotta tell me what tomorrow brings
And now i feel my life is just another dream
Even if im lost im gonna find a way
And even if i'll never see another day
Just tell me what tomorrow brings...
Somebody gotta tell me what tomorrow brings
And now i feel my life is just another dream
Even if im lost im gonna find a way
And even if i'll never see another day
Just tell me what tomorrow brings...
