# Ambition

## Pepper

With the quickness and the means to get these dreams yeah,
Now that I see the mornin',
Weigh the selection cause I like to choose,
And now the more I come across the more I like to use,
It seems that I've been shown to see, plastic works wonders when there's no money,
And if I get one, I'll probably want a few, pounds in stacks comin' to the rescue,
Mr. Risk-taker, a job description, grabbin' luxury through my intuition,
As I throw down payment on three, houses in Spain, Kona and Cali. Always tryin to get it all...
As my ambition gets larger, It's time for me to ride,
As my ambition gets larger, The picture hits my eyes,
As my ambition gets larger, Now it's my own desire,
As my ambition gets larger, This is the place and now's the time!
Time, time...
Come with it, your sexy body is equip, my blue under record
All that you get me into, just an international sound soul rebel,

Moving units on her own label, All along she kept it goin' own,
Late night, hyped up, fuckin' up till dawn.
Now Mrs. Homedigger, she never refused, lovin' for the things that I loved to do,
Always tyin' to get it all...
As my ambition gets larger, It's time for me to ride,
As my ambition gets larger, the picture hits my eyes,
As my ambition gets larger, now it's my own desire,
As my ambition gets larger, this is the place and now's the time!
Ambition...
As my ambition gets larger, It's time for me to ride,
As my ambition gets larger, The picture hits my eyes,
As my ambition gets larger, Now it's my own desire,
As my ambition gets larger, This is the place and now's the time!
As my ambition gets larger, as my ambition gets larger,
Ambition, ohh..
