

Keep Swingin' (feat. Kellin Quinn)

Good Charlotte

I had nothing to say
'Cause I could never fake it
So I just stood by
And I watched all them take it
If we lose our way
We will learn how to shake it
All that shit that fucks you up
We learn to knock it off and just walk away 'Cause you know we ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think
'Cause you know we ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think You and I will work it out somehow
Come on, come on
See the look on your face
Yeah, I know what you're thinking
So should I even waste my time?
Stop the words before they sink in
You know your love is saying
That you're never gonna change
Well, artists sell their soul
Bottles of pills, and empty spaces 'Cause you know we ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think
'Cause you know we ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think I'm not gonna spend today
Thinking about whatever happened yesterday
I don't wanna let love slip away
'Cause you've been gone awhile
She will stay, she's here to stay And you know we ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think
'Cause you know we ain't got no soul now

Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think You and I will work it out somehow
Come on, come on
You and I will work it out somehow
Come on, come on
