Straight Down the Line

British Sea Power

Straight down the line with blood
Straight down the line with hate
I never felt so good
I never felt so greatIt all looks so familiar
Its so very [Incomprehensible] tough
Cross the military ground
I am lost but Ill be foundSunshine, gunfire [Incomprehensible] at me
I wont be getting hurt today
Fifteen miles without a break
Just for one more month of graceI said romance is dead
Created destruction in my head
But right in my heart is a torture so [Incomprehensible]
But I never felt so goodStraight down the line with blood
Straight down the line with hate
I never felt so good today
I never felt so greatHe made me a meal out of the scraps
Then he talked to a photograph
He would rather take your pain
Than see you get hurt this wayCause you cant make it alone
You cant make it alone
And you can never know
You can never knowDont go any further
Dont go any furtherI never knew that it could feel so good
I never knew that it could feel so good
I never knew that it could feel so good
I never knew that it could feel so goodCause it feels Ive known
Cause its all just so point blank
But you never felt so goodStraight down the line with blood
Straight down the line with hate
I never felt so good
I never felt so greatStraight down the line, straight down the field
Straight down the line nothing is real
Imploding, combusting
Better yet settlingAnd you cant make it alone
You cant make it alone
