Shout

Attaboy

When you feel the world is above you
When you feel like screaming your lungs out
When you're in the darkness all alone
Don't wanna let it eat you alive
You'll never be alone, you'll never be alone
A man's gotta do what he's gotta do as long as you
Shout, scream your hearts out
Don't let nobody take you down
Where you ain't belong
Shout, scream your hearts out
Don't let nobody take you down
Where you ain't belong, yeah
Why don't you fight for once in your life?
Don't wanna live your life through someone else's eyes
You'll never be alone, you'll never be alone
A man's gotta do what he's gotta do as long as you
Shout, scream your hearts out
Don't let nobody take you down
Where you ain't belong
Shout, scream your hearts out
Don't let nobody take you down
Where you ain't belong, yeah
Now that I'm here, I'm gonna face my fears
Tired of hiding and I'm tired of running
All that was part of me the fear that was in me
I'm strong enough to finally break free
Shout, scream your hearts out
Don't let nobody take you down
Where you ain't belong
Shout, scream your hearts out
Don't let nobody take you down
Where you ain't belong, yeah
It's your time to shout
So shout, it's your time to shout, yeah
