Juniper

DJ Jus-Ed

Fathers and mothers all those years ago
Did you ever did you ever know
My sisters and my brothers all dead and gone
Did you know that wishing won't make it so
All the children flying down Juniper
All going where children go
All the children flying down Juniper
Let us goAnd did you ever wonder the places we would go
And did you realize we felt our woe
All the children flying down Juniper
All going where children go
All the children flying down Juniper
Let us goIf we forgive ourselves we might be whole
But you know that wishing wishing won't make it so All the children flying down Juniper
All going where children go
All the children flying down Juniper
Let us go
Let us go
